Kidney Connection:
A Patient to Patient Peer Mentoring Program
Application

The Centers for Medicare & Medicaid Services (CMS) collects information from people with Medicare to improve their customer experience. Executive Order 12862 authorizes federal agencies, like CMS, to collect information when it is being used to improve the quality of service and satisfaction that they want people with Medicare to experience.

Your response to this application is voluntary. However, should you choose not to respond, it may affect CMS's efforts to ensure people with kidney disease are given the opportunity to participate in a peer mentoring program where a patient peer shares information and supports a newly diagnosed patient with kidney disease. The responses provided in this information collection will be used only for the Kidney Connection Patient Peer Mentoring Program to pair peer mentors (patients providing information and experiences) to mentees (patients seeking information and experiences).

Thank you for your interest in the Kidney Connection Patient to Patient Peer Mentoring Program. The information that you provide on this application will help pair you with your peer and will only be used for this program. Please answer all the questions on this form and fax your completed application to Yessi Cubillo at 609-490-0835. If you have questions about the application or the program, please call Yessi Cubillo at 609-490-0310 Ext. 2431.
