

LIVING D@NOR FIRST

Your Best Choice for a Kidney Transplant

Why Choose a Living Donor First?

- **Reduced waiting time:** Get off the transplant wait list faster.
- **Immediate function:** A living donor kidney often starts working right away and can last longer than a deceased donor kidney.

What You Can Do:

- **Expand your circle:** Living donors can be anyone who knows about your need — not just family members.
- **Spread the word:** Share our transplant office contact information with potential donors:

Call: 800.543.8814
